

ABOUT THE INSTITUTES:

Rajiv Gandhi Government Engineering College (RGGEC), Kangra at Nagrota Bagwan

Rajiv Gandhi Government Engineering is a State Government funded Engineering College located in Nagrota Bagwan, Distt. Kangra, Himachal Pradesh, India. The College was set up in the year 2014. At present, the Institute is running four engineering courses in Civil Engg., Electrical Engg., Electronics & Communication Engg. and Mechanical Engg. along with 5 years B. Arch. course. The College is one of the five Government Colleges affiliated to the Himachal Pradesh Technical University (HPTU), Hamirpur and approved by All India Council for Technical Education (AICTE), New Delhi. Recently, the Institute has been adjudged amongst the best performing institutions in the state of Himachal Pradesh in respect of World Bank funded TEQIP-III project.

Department of Technology (DoT), Shivaji University, Kohlapur

This institute is twinning partner (mentor institute) of RGGEC under TEQIP-III project. Shivaji University Kohlapur started DoT in June 2006. The aim was to provide opportunity for students to learn technology education and research of global standard for the human resource development. Firstly, four M. Tech courses were started in 2006 and five B. Tech courses were started in 2008. DoT is approved by AICTE. Admissions are as per AICTE and DTE, Govt. of Maharashtra norms. The relation between two institutes is growing at a comfortable pace with long term vision to collaborate in academic and research domains.

ABOUT THE WORKSHOP

Unprecedented expansion of Technical Education in the country over past three decades or so has ushered in reduction in intake by some colleges and even closure of programmes by many others in the country. Yet, few others have taken to improve quality of their programmes to stay up to date and thereby forerunner among colleges preparing to compete on ground of quality and relevance.

Accreditation of engineering programmes is set of processes which are designed to ensure minimum level of quality of a programmes. It is the recognition accorded to technical education programmes both at degree and diploma levels those meet the standards evolved by the National Board of Accreditation (NBA). NBA has evolved a systematic, logical and transparent process of accreditation for engineering programmes. It has been revised many times based on the experiences and feedback from participating institutes and stakeholders.

Preparation for obtaining NBA accreditation of academic programmes offered by technical institutions has become imperative in view of the competition and demand for quality, decreasing admissions in technical programmes, AICTE requirements for expansion of programmes and getting funds and support from different stakeholders.

OBJECTIVES OF THE WORKSHOP

The specific objectives of the workshop are:

1. To educate and aware the participants about NBA Accreditation.
2. To provide information about Vision statement, mission statement, goals statements, PEOs, POs, PSOs, Cos etc.
