

To,
All Central Universities, State Universities, Deemed Universities, Private Universities,

Respected Sir/Madam,

India Space Week is organized annually from August 12 to August 18 by the Bharat Antriksh Saptah. The purpose of this is to permanently establish Dr. Vikram Sarabhai (Great Space Scientist) in the hearts of the youth/students of our country, who established the first space science institute like ISRO in India. Keeping in mind his vision to promote 'Science and Innovation,' the aim of this Celebration is to foster scientific thinking in schools, colleges, and universities, as well as to create awareness and interest in space science among students and citizens. Students, teachers, and all citizens of the state are invited to participate. During this week, The following activities will take place throughout the week: Space Awareness Initiatives, CanSat & CubeSat Programs in Engineering Colleges and IITs, Space Medical Programs at Medical Colleges, Space Economy Discussions at MBA Colleges, Technology Showcases at Engineering Colleges, Space Policy Discussions at Law Colleges, Space Fashion Show and Costume Programs Competitions: Drawing and Painting, Speech-Discussion, and Essay Writing, Azadi Ka Mahotsav in Amrit Kaal Celebrations, Interactions with Scientists. These programs are designed to enhance public understanding of space science. They will involve participation from students from schools and colleges, who will actively participate in various educational programs. These programs are designed to disseminate the latest information on space science and foster interest among students and the general public. ISRO and DRDO experienced scientists will conduct the educational Session, ensuring participants receive high-quality information and insights.

The theme of India Space Week 2025 - Space Education and Innovation

These efforts are aligned with Prime Minister Narendra Modi's vision of inspiring Indian citizens to contribute to the field of space science. By engaging educational institutions nationwide, India Space Week aims to foster a culture of innovation and exploration in space technology.

Honorable Prime Minister Shri Narendra Modi ji appreciated the efforts of spreading space awareness and space education by India Space Week in MANN KI BAAT program (August 2024).

It is a humble request to you that the above program is related to space science, which is being organized to commemorate the birth anniversary of founder of Indian Space Research Organisation (ISRO) "Dr Vikram Sarabhai". Therefore, we expect that the information about the above program should also be uploaded on the official website of the All Central Universities, State Universities, Deemed Universities, Private Universities, so that lakhs of students interested in space science can get the information. This program can be made accessible to the students. This will help in establishing your state as a leading region in space education.

It is hoped that while giving your positive cooperation in this ambitious campaign of ours, you will provide your invaluable cooperation by uploading the information about the said programs on your official website.
